BAT CROSSBOW

Ballista BAT is the world's fastest Compound Pistol Crossbow, with a bolt speed of up to 330fps. The BAT crossbow does not need a special case. It's so compact that it fits into a small 30 liter backpack that you probably already have at home. The width of the crossbow when loaded is even less than the average person's palm. Loading a crossbow has never been easier. The Ballista BAT is the only crossbow in the world with a built-in self-retracting cord tensioner. With this technology, loading the crossbow is quick, easy and noiseless! The cocking system is designed to ensure that the maximum force applied over the entire length of the stroke does not exceed 40 pounds. Therefore, anyone can easily handle this crossbow. In cramped conditions, this system allows for instant (3 seconds) and silent reloading that hunters will appreciate.

TECHNICAL SPECS

- Draw weight of bow limbs 130 lbs
- Velocity up to 330 fps
- Weight 2.46 lbs
- Length 16"
- Width Axle to Axle Cocked 5"
- Width Axle to Axle Uncocked 8"
- Power-Stroke 6.75"
- Pull rod draw weight40 lbs

SKU: BAL-CB-02

BAT REVERSE CROSSBOW

Ballista BAT reverse is the revolutionary crossbow on the market. This is the world's fastest reverse-draw Pistol Crossbow. The reverse-draw limbs and differently shaped cams lengthen the power stroke and increase the force acting on the bolt. This allows the crossbow to reach bolt velocity of up to 420 FPS. The innovative cocking system used in the original Bat works flawlessly in the Bat reverse as well, making it easy for anyone to load the crossbow. Just pull the handle to cock it. In only a few seconds, it's ready to fire. The cocking system is designed to ensure that the maximum force applied over the entire length of the stroke does not exceed 50 pounds.

TECHNICAL SPECS

- Draw weight of bow limbs 150 lbs
- Velocity up to 420 fps
- Weight 3 lbs
- Length 16"
- Width Axle to Axle Cocked 5"
- Width Axle to Axle Uncocked 9"
- Power-Stroke 8.25"
- Pull rod draw weight50 lbs

BALLISTA BAT REVERSE WITH MAGAZINE

The Ballista BAT Reverse Crossbow with a magazine stands out as a revolutionary addition to the market. As the world's fastest pistol crossbow featuring a 5-bolt magazine, it exclusively accommodates the 10.5" practice bolts available in our store.

The installation is straightforward and requires minimal effort. The magazine also includes a Picatinny rail, providing the option to mount optics.

TECHNICAL SPECS

- Draw weight of bow limbs 150 lbs
- Velocity up to 420 fps
- Weight 3 lbs
- Length 16"
- Width Axle to Axle Cocked 5"
- Width Axle to Axle Uncocked 9"
- Power-Stroke 8.25"
- Pull rod draw weight50 lbs

BALLISTA L-BUTTSTOCK

Searching for the ideal upgrade for your crossbow? Our stock is designed to improve your shooting game. Elevate your crossbow shooting skills with this stock. The butt has several modifications and is suitable for both Ballista BAT and Ballista BAT Reverse. It comes equipped with a special trigger system, ensuring the accuracy and effectiveness of each shot. Feel the difference in precision and control with this exclusive upgrade.

SKU: BAL-FG-01

SKU: BAL-AC-08

MEGABAT

The Ballista Megabat is the world's only full-size crossbow featuring a built-in self-adjusting cord tensioner. The innovative loading system offers the combined advantages of a bow and a crossbow in one product, providing the stability of a crossbow along with the ease of handling and loading associated with a bow. It's set to redefine the rules of the game.

TECHNICAL SPECS

- Draw weight of bow limbs 330 lbs
- Velocity up to 420 fps
- Weight 8.92 lbs
- Length (with stirrup) 33"
- Length (without stirrup) 29"
- Width Axle to Axle Cocked 9.1"
- Width Axle to Axle Uncocked 12.9"
- Power-Stroke 10.6"
- Pull rod draw weight 110 lbs

SKU: BAL-AC-08

MEGABAT REVERSE

The Megabat Reverse Crossbow stands as the world's fastest-charging crossbow. Unique reverse protrusions and cams, designed with a different shape, extend the working stroke and amplify the force on the shutter. This capability enables the crossbow to achieve an impressive shot speed of up to 450 frames per second.

With the incorporation of reverse limbs, the crossbow riser is positioned closer to the shooter, enhancing balance and stability. Additionally, the crossbow remains stationary during the shot, minimizing forward movement and eliminating extra vibrations.

TECHNICAL SPECS

- Draw weight of bow limbs 360 lbs
- Velocity up to 450 fps
- Weight 9.28 lbs
- Length (with stirrup) 32–35"
- Length (without stirrup) 28–30"
- Width Axle to Axle Cocked 8.6"
- Width Axle to Axle Uncocked 13.3"
- Power-Stroke 12.2"
- Pull rod draw weight 120 lbs

1X 30MM REFLEX RED DOT SIGHT

The 1.18" (30mm) objective diameter lens allows for a clear field of view as wide as 57' at 100 yards. The Quick Adjustment Knob can help you instantly adjust shooting accuracy and improve efficiency, so you never have to worry about forgetting to bring adjustment tools. The red dot is equipped with flip-open lens covers to protect the optics and allow you to quickly start using the scope. Replacing the battery is quick and easy, and it lasts for thousands of hours. There's a built-in mount for 20mm Picatinny/Weaver and 11mm Dovetail rails. Dual specification rail: need to reverse the rail mount to adjust the special base fastened by 2 screws. The red or green illuminated dot with 5-level brightness control allows use in any lighting conditions. The sight's lens is sealed with O-rings to prevent moisture or dust from getting inside and fogging the optic. The body is made from a high grade aluminum alloy. Works great in all weather conditions.

TECHNICAL SPECS

- Dot Color Red & Green
- Brightness Level 5 levels
- MOA 4MOA
- Objective Lens Diameter 1.18" (30 mm)
- Magnification 1x
- Fitment 20mm/11mm rails
- Body Material Aircraft-Grade Aluminum Alloy
- Type Reflex
- Color Black
- Windage & Elevation Adjustment Knobs
- CR2032 Battery Included
- 2x Lens cover

1X22X33 REFLEX RED DOT SIGHT

This red dot sight offers a range of features to enhance accuracy and ease of use. Its multi-reticle design allows for four different styles, while the illumination system offers five levels of both red and green lighting. It is fully adjustable in terms of brightness, windage, and elevation, ensuring optimal performance in any situation. Additionally, the sight is ultralight, waterproof, and shockproof, and is powered by a single 3V lithium battery (included). The glass surfaces have multiple layers of anti-reflective compounds, resulting in bright and vivid images with excellent light transmission from dawn to dusk. The red dot sight is made from high-grade aluminum alloy, ensuring durability and lightweight portability. Overall, this sight is a reliable and dependable choice for a wide range of shooting applications.

TECHNICAL SPECS

- Dot Color Red & Green
- Lens 1x22x33mm
- Brightness Level 5 levels
- MOA 4 MOA
- Elevation range 40 MOA
- Windage range 40 MOA
- Magnification 1x
- Fitment 20mm rail
- Body Material Aircraft-Grade Aluminum Alloy
- Type Reflex
- Color Black

- 4 Reticles
- CR2032 Battery Included
- 1x Lens cover

13" CARBON BOLTS

Ballista bolts are made of 100% carbon and are ideally suited for the BAT and BAT Reverse crossbows, as well as most pistol crossbows on the market. These bolts are great for recreational shooting and practice.

Ballista bolts, although compact in size, are highly effective and reliable, setting them apart from most plastic bolts.

TECHNICAL SPECS

- Weight 150 grains (each)
- Bolt length 13"
- Shaft length 12"
- Outside diameter 5.5mm/0.22"
- Shaft material Carbon
- Tip material Steel
- Nock Half-Moon
- Fletchings 2 x 1.75"

- Compatible with Ballista BAT and BAT Reverse crossbows and other pistol crossbows
- Pack of 6

13" BALLISTA STING HUNTING CARBON BOLTS

The one and only! The Ballista Sting is the only versatile pistol crossbow bolt on the market with a .166 micro-diameter shaft. No need to compromise between speed, accuracy and penetration. The only micro-diameter bolts in the world that you can use with any tips, so you have the full freedom to customize. The penetrator insert at the wide part comes in a standard size, which allows for any broadhead to be used. You can replace the original aluminum insert with a copper or steel one to increase the bolt's weight and achieve maximum kinetic energy.

TECHNICAL SPECS

- Weight 235 grains (each)
- Bolt length 13"/325mm
- Shaft length 11"/279mm
- Outside diameter 6mm/0.24"
- Inside diameter 4.2mm/0.166"
- Shaft material Carbon
- Insert material Aluminum Alloy
- Tip material Steel
- Spine 400
- Nock Half-Moon
- Fletchings 2 x 1.75"
- Compatible with Ballista BAT and BAT Reverse crossbows and other pistol crossbows
- Pack of 6

STAINLESS STEEL PENETRATOR INSERTS (ID 4.2MM)

Thanks to their micro-diameter and penetrator inserts, the arrows will enter the target with ease. Experiments have shown that, compared to standard diameter (.296), micro-diameter shafts increase penetration by up to 25%! The penetrator insert at the wide part comes in a standard size, allowing the use of any broadheads. It's the only penetrator insert in the world that can be used with any tip, giving you full freedom to customize your bolts.

TECHNICAL SPECS

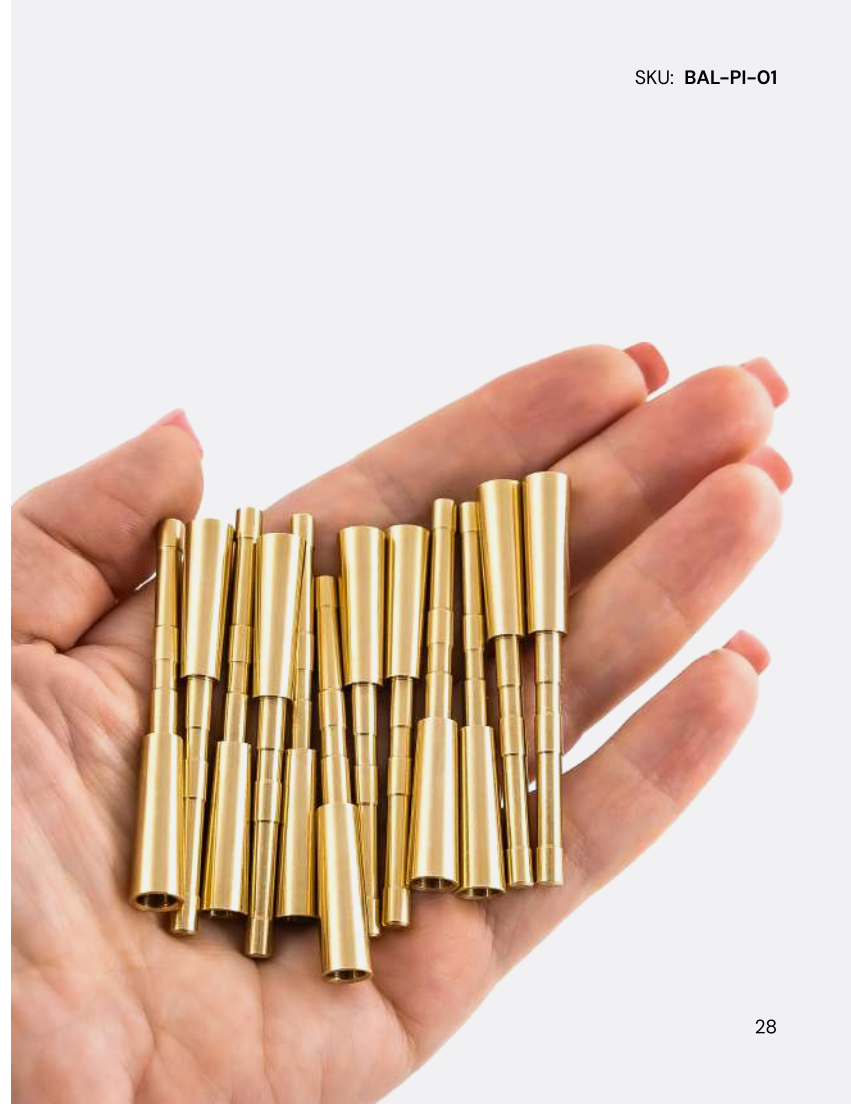

- Material Stainless steel
- Weight 120 grains
- Adapter between micro-diameter arrow shaft
ID 4.2mm / OD 6mm and standard tips and
broadheads OD 7.6mm
- Pack of 12

COPPER PENETRATOR INSERT (ID 4.2MM)

Thanks to their micro-diameter and penetrator inserts, the arrows will enter the target with ease. Experiments have shown that, compared to standard diameter (.296), micro-diameter shafts increase penetration by up to 25%! The penetrator insert at the wide part comes in a standard size, allowing the use of any broadheads. It's the only penetrator insert in the world that can be used with any tip, giving you full freedom to customize your bolts.

TECHNICAL SPECS

- Material Copper
- Weight 125 grains
- Adapter between micro-diameter arrow shaft ID 4.2mm / OD 6mm and standard tips and broadheads OD 7.6mm
- Pack of 12

BOWFISHING ARROWS FOR BAT CROSSBOW

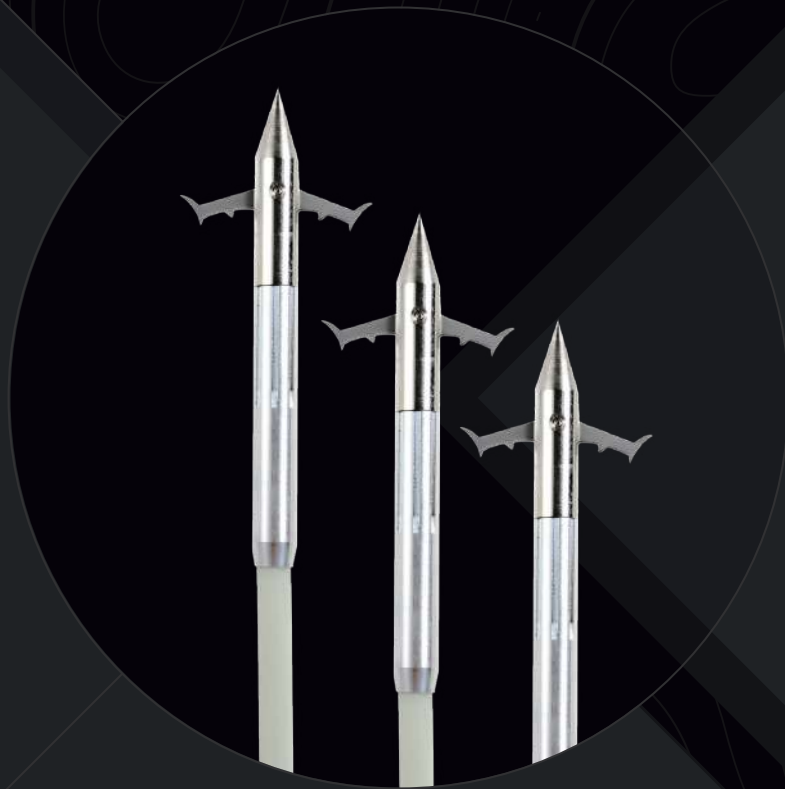

For bowfishing enthusiasts, the Bowfishing Arrows designed specifically for pistol crossbows are a game-changer. Dive into the world of bowfishing with this pack of 3 arrows, ensuring precision and durability in every shot. Compatible with Ballista BAT and Ballista BAT Reverse, and with a length of 15 inches and a diameter of 0.23 inch, these arrows are tailored for optimal performance. Whether you're a seasoned angler or just starting out, these arrows promise to elevate your bowfishing experience.

TECHNICAL SPECS

- Length 15"
- Diameter 0.23" (6mm)
- Weight 4.8 oz
- Compatible with Ballista BAT, Ballista BAT Reverse and some other pistol crossbows
- Pack of 3

SPINCAST REEL BL25

BALLISTA BL25 is a simple and reliable spincast fishing reel made of stainless steel that prevents corrosion. The internal gears are made of die-cast alloy, providing reliability and a smooth feel. The stainless steel handle has two knobs that give balance during rotation and an easy grip. The handle can quickly and easily be changed from left to right-hand use. With a 3.3:1 gear ratio, the fishing reel picks up the line quickly, allowing you to save time between shots. The BALLISTA BL25 can be used for bowfishing, slingshot fishing, as well as fishing with a casting rod. The spincast reel comes equipped with a strong 5# (0.37mm/50 lb) 40-yard line specially designed for bowfishing and slingshot fishing. The line capacity of the reel with a line 0.6# (0.12mm/8lb) is 100 yards, so it can be used for fishing with a casting rod.

SKU: BAL-RE-01

TECHNICAL SPECS

- Gear ratio 3.3:1
- Ball bearings 1+1 BB
- Material Aluminum Alloy,
Stainless Steel, Plastic
- Line capacity 0.6# (0.12mm/8lb)
100yards
- Equipped with 5# line (0.37mm/50lb)
40 yards.
- Net weight 9.8 oz
- Dimensions 4 × 4 × 3 in

SPINCAST REEL BL 33

The BALLISTA BL33 Spincast Fishing Reel is a high-quality reel designed for anglers of all ages and skill levels. With its compact and lightweight design, this reel measures 4.25 inches in length and weighs just 8 ounces, making it easy to handle and carry. It is manufactured with the highest quality standards, ensuring the best performance and durability. The BL33 Reel features a smooth drag system and an easy-to-use push-button casting system that encourages skill level development and is perfect for both novice and experienced anglers. Equipped with 6+1 ball bearings, adjustable pitch, and a gear ratio of 3.6:1, this reel offers the speed, power, and flexibility you need to fish in a variety of environments. It comes with a 5# (0.35mm/50lb) braided X8 line, making it ideal for both freshwater and saltwater bowfishing.

SKU: BAL-RE-02

TECHNICAL SPECS

- Gear ratio 3.6:1
- Ball bearings 6+1 BB
- Material Aluminum Alloy,
Stainless Steel, Plastic
- Line capacity 0.6# (0.12mm/8lb)
100yards
- Equipped with 5# (0.35mm/50lb)
braided X8 line 45 yards.
- Net weight 8 oz
- Dimensions 4.25 × 2.5 × 2.75 in

BOWFISHING REEL MOUNT

The bowfishing reel mount is used for the connection between a fishing reel and a compound and recurve bow, crossbow, slingshot and even a blowgun. The reel mount is made from aluminum alloy and stainless steel, which ensures a long lifetime and reliability. The reel seat is easy to install and use. It works with any type of fishing reel but works best with a spincast reel. It can be mounted on any compound and recurve bow that has a stabilizer mounting hole. With this mount, no additional parts or tools would be needed to add a reel to a bow (reel not included.)

TECHNICAL SPECS

- Material Aluminum Alloy, Stainless Steel
- Weight 5 oz
- Dimensions 5.25 × 1.5 × 1.5 in

- Bowfishing Reel Mount x1
- Bolts x1
- Nuts x2
- Wrench x1

BOTTOM PICATINNY RAIL FOR BAT & BAT REVERSE CROSSBOWS

The bottom picatinny rail can be used to equip the pistol crossbow with additional accessories. With it, you can easily install equipment such as flashlight, laser sight, foregrip, tripod, GoPro, Tactacam and many others for various hunting and bowfishing uses.

TECHNICAL SPECS

- Length 4.5"
- Material Aluminum
- Weight 0.15 lbs
- Dimensions 4.5 × 0.875 × 0.75 in

- CNC machining
- Anodized
- Compatible with Ballista BAT and BAT Reverse

FOLDING FOREGRIP FOR THE CROSSBOWS

The foregrip is compatible with both the BALLISTA BAT and BALLISTA BAT Reverse models, and can be used with a Picatinny rail on the bottom for easy attachment. It can be folded, which is perfect for saving space when transporting and storing the crossbow. Constructed from lightweight yet durable nylon material, the foregrip can be mounted on a Picatinny/Weaver 20mm mount. Its ergonomic design provides a comfortable and secure grip.

TECHNICAL SPECS

- Material Nylon
 - Color Black
 - Folded size 4.35"x2.30"x1.63"
 - Unfolded size 4.9"x2.17"x1.63"
 - Weight 4.5 oz
-
- 1x Foregrip
 - 1x Hex wrench

SKU: BAL-AC-09

CROSSBOW FOLDING STOCK

The Ballista is the world's first crossbow that can be equipped with a folding stock. The FAB-DEFENSE Cobra folding buttstock allows for quick deployment and flexibility of use. You can carry the crossbow with the buttstock folded in most regular backpacks and deploy the stock in a fraction of a second. With FAB-DEFENSE Cobra, you can take comfort and accuracy to the next level.

TECHNICAL SPECS

- Weight 0.25 lbs
- Folded length 9.5
- Unfolded length 13
- Set Adapter + Stock
- Compatible with Ballista BAT and BAT Reverse

SKU: BAL-SS-01

STRING AND CABLES SET FOR BAT CROSSBOW
